Internship completion certificate for Dmytro SAVCHUK

Dear Madam or Sir,

Let me first introduce myself. I am an Associate Professor at Polytech Nancy, University of Lorraine, which is a five-year program Engineering school. I am head of the Intelligent & Autonomous Systems department where Dmytro SAVCHUK is studying as an exchange student. According to the regulations for the Engineering degree program at Polytech Nancy, Dmytro SAVCHUK must accomplish an internship as Engineer assistant of 14 weeks.

This is to certify that Dmytro SAVCHUK has successfully completed his internship from April to July 2022, in the French research institute Institut Jean Lamour, under the guidance of professor Omar Elmazria. He was found hardworking, volunteer and serious.

Floriane Collin  
Associate professor at University of Lorraine  
Head of the Intelligent & Autonomous Systems department  
at Polytech Nancy
